

**FROM THE PRINCIPAL**

Dear Parents and Community Members,

We are excited to start another year with your student(s) at CPE. Over the past couple years, we have focused our attention on raising the achievement levels for all students. With the first year of the new state assessment (SBAC) behind us, we are looking at the data and developing additional ways to improve student learning and achievement. By no means are we satisfied with the results, but we also look at many other points of data to determine our course of action.

This year, we will continue to align our instruction to the Common Core State Standards, continue development of our response systems and monitor student progress closely. Implementation of our best teaching practices using a composite curriculum model will be our continual cycle of response as challenges arise. Ongoing implementation and assessment of varied instructional

tools/approaches has been one of the most effective methods at closing the achievement gap for our diverse population. We will also strive to capitalize on the strengths individuals inherently have as this builds confidence, security and a genuine affection for learning amongst our students.

We want to encourage you to stay connected to your student's teacher. Attending Back to School Night, conferences, volunteering and regular communication are important elements that demonstrate your commitment to education. Working together will benefit students and increase our ability to serve the unique needs of each child at CPE.

Thank you,

Principal | Walt Davenport

## FROM THE PRINCIPAL

Dear Parents and Community Members,

This annual report card, issued by the Oregon Department of Education, offers a comprehensive picture of what Jewett Elementary offers to its students, as well as a picture of our current levels of achievement and student growth.

We will evaluate our student achievement levels on the Smarter Balanced Assessment and adjust our programs accordingly. Our extra support programs (Special Education, English Language Development, and Title I Reading and Math) will continue to focus on the sub-groups that had lower achievement levels. Specifically our students with disabilities and English learners.

I encourage parents to be involved in their student's education. Parents can stay involved by attending school events, being active in the PTO and communicating on a regular basis with the classroom teacher.

All adults at Jewett strive to create a safe and engaging environment for students. We know that state testing is only a portion of what a school should be evaluated on. It is our goal to create a school that your students are excited to attend. We can do this by fostering genuine engagement in classroom activities and by building meaningful relationships with our students and families.

Thank you,

Principal | Tom Rambo

**FROM THE PRINCIPAL**

Dear Parents and Community Members,

District 6 elementary schools strive to provide a high quality, diverse education in an accepting and caring environment. We support students in discovering a love for learning, seizing challenges, and using their creativity. We respect their individual strengths and passions and see them as our national treasure.

Our ongoing efforts to help all students succeed include:

- Implementing the Common Core State Standards, which will better prepare students for later learning and careers.
- Supporting students' social development and fostering a caring school community.
- Monitoring each student's learning progress so teachers know where to provide extra challenges or additional supports.

- Helping students to develop a love of learning, a growth mindset, and a spirit of perseverance.

We appreciate the opportunity to work closely with you to support student growth and development. All students benefit from active attention and encouragement at home. Additional ways you can help are reading with your child at home, and letting them see you reading, providing a quiet, supportive study space for homework, communicating with your child's teacher, attending parent-teacher conferences, and volunteering at the school. We look forward to joining with you to help your student have a great year.

Thank you,

Principal | Sara Hanberg

**FROM THE PRINCIPAL**

Dear Parents and Community Members,

We are excited to share with our parents and community members the Sam's Valley Elementary school report card produced by the Oregon Department of Education. Due to the passage of Every Student Succeeds Act, the state will not be giving the school an overall rating for the 2015-2016 school year. In reviewing the results for English Language Arts, Mathematics and Science though, we are pleased that our students are demonstrating results in terms of achievement and growth that meets and exceeds other schools across the state. Our English Language Arts scores were comparable to both the state average and like schools to Sam's Valley. One of our school's focuses this year will be on effective instructional strategies in English Language Arts. In the areas of Mathematics and Science, Sam's Valley Elementary exceeded both the state average and like schools.

Our success is a reflection of our teachers and staff knowing every student's strengths, challenges and interests. We believe the implementation of a new math curriculum and professional development for our staff in effective teaching strategies in math instruction is reflected in our math achievement above the state

average. FOSS sciences kits, STEM kits and our school garden all contribute to an enriching learning experiences for our students in Science. In addition, our commitment to providing small group intervention and enrichment in the areas of reading and math for all students has proven to be effective. Academic growth and achievement for all students, as well as character education and enrichment opportunities, will be a continued goal of improvement for our school.

Sam's Valley Elementary will continue to strive for a strong core instruction and enrichment opportunities targeted to each individual student needs. Professional development, instructional practices and allocation of resources will be focused on core reading and math instruction. We promise to continue to provide your student with a safe and academically challenging environment. We look forward to partnering with you over the coming year to help all of our students reach their potential.

Thank you,

Principal | Christine Beck
